Technology and Theology William H. U. Anderson, 2021-01-05 Technology is growing at an exponential rate vis vis humanity s ability to control it Moreover the numerous ethical issues that technology raises are also troubling These statements however may be alarmist since Telus would tell us The Future is Friendly The Modernist vision of the future was utopic for instance Star Trek of the 1960s But postmodern views such as are found in Blade Runner 2049 are dystopic Theology is in a unique interdisciplinary position to deal with the many issues pro and con that technology raises Even theologians like Origen in the third century and Aquinas in the thirteenth century made forays into Artificial Intelligence and surrounding issues they just didn t know it at the time Artificial Intelligence AI and Transhumanism raise questions about what it means to be human What is consciousness What is soul What are life and death Can technology really save us and give us eternal life Theology is in a unique position to handle these questions and issues This book also has practical applications in terms of ecclesiology church in the context of the COVID 19 pandemic both in terms of what it means to be a church and in terms of the sacraments or ordinances Is there such a thing as a Virtual Church or must we gather physically to constitute one Are Baptism and Communion legitimate if one is not physically in a church building but are online This book struggles with these and many other questions which will help the scholar or reader make up their own minds however tentatively

Simple Faith Stephen W. Hiemstra, 2019-04-26 As Christians how do we know what we know This simple question challenges the nature of information how we learn decision making who we are and who this God is that we worship If this challenge appears optional it is not our post Christian culture questions every faith assumption Simple Faith examines these questions and discusses implications for faith and life An important implication of this study is that faith plays a critical role into how we think learn and make decisions in the context of limited resources and an uncertain future Even scientific inquiry requires faith which normally gets hidden in untested assumptions and presumptions about what is interesting to investigate Often the critical arguments driving our decisions are not cold hard facts but the stories that we tell in the midst of complex decision environments The timing of this inquiry is critical The movement from modern to postmodern thinking has upended most institutions but especially the Christian church The separation of heart and mind which characterizes

modern thinking eroded faith leaving the church in a weak position to adapt to the rapid changes accompanying postmodernism Ironically postmodern thinking that values storytelling favors Christian faith because the Gospel of Jesus Christ is the best story around Kierkegaard and the Question Concerning Technology Christopher B. Barnett,2019-08-22 Over the last several decades technology has emerged as an important area of interest for both philosophers and theologians Yet despite his status as one of modernity s seminal thinkers S ren Kierkegaard is not often seen as one who contributed to the field Kierkegaard and the Question Concerning Technology argues otherwise Christopher B Barnett shows that many of Kierkegaard s criticisms of the present age relate to the increasing dominance of technology in the West and he puts Kierkegaard s thought in conversation with subsequent thinkers who grappled with technological issues from Martin Heidegger to Thomas Merton Barnett shows that Kierkegaard s writing with its marked emphases on personal upbuilding stands as a place where deeper non technical modes of thinking are both commended and nurtured In doing so Barnett presents a Kierkegaard who remains relevant perhaps all too relevant in today s digital age An Introduction to Philosophy Steven B. Sherman,Richard A. Holland,Gary S. Osmundsen,Peter J. Rasor,2025-03-18 Designed for students in Christian colleges and seminaries An Introduction to Philosophy surveys the four main areas of philosophy logic metaphysics epistemology and ethics in an accessible and engaging manner Yet it also covers important topics sometimes left unaddressed in introductions including why philosophy matters in our day critical thinking and intellectual virtue a brief history of philosophy philosophical hermeneutics the relationship between philosophy faith and worldview religious epistemology bioethics sexual ethics other types of ethics a Christian philosophy of life Grounded in the Christian intellectual tradition each chapter in An Introduction to Philosophy includes student friendly features such as chapter summaries explanatory sidebars reflection questions vocabulary words and definitions and suggestions for further reading Professors and students will find it to be a broad and useful overview perfect for undergraduate and seminary students alike

Networks for Faith Formation Steve Emery-Wright,Ed Mackenzie,2017-05-19 The spiritual formation of young people can often focus on encouraging their personal spiritual practices and perhaps linking them to a local youth group While both are important Networks for Faith Formation argues that a far wider set of relationships are needed to help faith grow The aim of Networks for Faith Formation is to describe and commend eight key networks relational bonds that nurture and nourish faith The eight networks are bedroom practices personal faith church family friends mentors small groups events and gatherings and mission and service The description of each network draws on biblical studies practical theology and the social sciences and practical ideas for helping young people engage with such networks are included throughout the book In a context where some overlook the complexity of spiritual formation Networks for Faith Formation is an important resource for church leaders youth ministers and parents seeking to help young people grow in faith Since relational bonds are key for people of any age it can also help all within the church understand the need for relationships in spiritual growth *The Digital*

Evangelicals Travis Warren Cooper, 2022-08-02 When it comes to evangelical Christianity the internet is both a refuge and a threat It hosts Zoom prayer groups and pornographic videos religious revolutions and silly cat videos Platforms such as social media podcasts blogs and digital Bibles all constitute new arenas for debate about social and religious boundaries theological and ecclesial orthodoxy and the internet's inherent danger and value In *The Digital Evangelicals* Travis Warren Cooper locates evangelicalism as a media event rather than as a coherent religious tradition by focusing on the intertwined narratives of evangelical Christianity and emerging digital culture in the United States He focuses on two dominant media traditions media sincerity immediate and direct interpersonal communication and media promiscuity communication with the primary goal of extending the Christian community regardless of physical distance Cooper whose work is informed by ethnographic fieldwork traces these conflicting paradigms from the Protestant Reformation through the rise of the digital and argues that the tension is culminating in a crisis of evangelical authority What counts as authentic interaction Who has authority over the circulation of information While many studies claim that technology influences religion *The Digital Evangelicals* reveals how Protestant metaphors and discourses shaped the emergence of the internet and explores what this relationship with global new media means for evangelicalism **Living the Questions of the Bible** Luke A.

Powery, 2023-05-16 *Living the Questions of the Bible* presents questioning as a viable and faithful Christian practice We may think the Bible is only about getting answers but the Bible is also a question book revealing how the life of faith is a quest with and for God By exploring various passages in the Bible this book attempts to invite readers into an interrogative spirituality one in which we learn that even God questions Faith seeks and keeps on seeking It may reach understanding or it may not Either way our questions are a way to live the Christian life honestly faithfully and doxologically Religion and the
