Rodgers, 2007-05-08 This is a Foreword by an archaeologist not a conservator but as Brad Rodgers says Conservation has been steadily pulled from archaeology by the forces of specialization p 3 and he wants to remedy that situation through this manual He sees this work as a call to action for the non professional conservator permitting curators conservators and archaeologists to identify artifacts that need professional attention and allow these professionals to stabilize most artifacts in their own laboratories with minimal intervention using simple non toxic procedures p 5 It is the mission of Brad's manual to bring conservation back into archaeology p 6 The degree of success of that goal depends on the degree to which archaeologists pay attention to and put to use what Brad has to say because as he says The conservationist archaeologist is responsible to make preparation for an artifact's care even before it is excavated and after its storage into the foreseeable future a tremendous responsibility p 10 The manual is a combination of highly technical as well as common sense methods of conserving wood iron and other metals ceramics glass and stone organics and composites a far better guide to artifact conservation than was available to me when I first faced that archaeological challenge at colonial Brunswick Town North Carolina in 1958 a challenge still being faced by archaeologists today The stage of conservation in 1958 is in dramatic contrast to the procedures Brad describes in this manual conservation has indeed made great progress For instance a common procedure then was to heat the artifacts red hot in a furnace a method that made me cringe The ARRL Handbook for the Radio Amateur, 2001 **Moody's Transportation Manual**, 2000 **CQ**, 1995 *The ARRL General Class License Manual* American Radio Relay League, 2004 *Ham Radio Magazine*, 1989 **The World Radio and TV Handbook, 1999** David Bobbett, 1998-12 The best selling handbook to world radio has been completely updated and provides as always the most comprehensive and up to date information for anyone seeking information about radio or television broadcasts anywhere in the world Among the features of this guide are over 300 pages of radio listings details of over 1000 English broadcasts broadcaster web sites and e mail addresses worldwide television station contacts and addresses articles with detailed technical information tuning tips and recommended programs and reviews of the latest and most exciting radio equipment World Radio TV Handbook, WRTV, 2004, 2004 *Ham Radio*, 1990 *73 Amateur Radio Today*, 2000 **Listening on the Short Waves, 1945 to Today** Jerome S.
