Ict Innovations 2011 Advances In Intelligent And Soft Computing:

Proceedings of Third Emerging Trends and Technologies on Intelligent Systems Arti Noor,Kriti Saroha,Emil Pricop,Abhijit Sen,Gaurav Trivedi,2023-09-19 This book presents best selected papers presented at the International Conference on Emerging Trends and Technologies on Intelligent Systems ETTIS 2023 held from 23 24 February 2023 in hybrid mode at C DAC Noida India The book includes current research works in the areas of artificial intelligence big data cyber physical systems and security in industrial real world settings The book illustrates on going research results projects surveying works and industrial experiences that describe significant advances in all of the related areas **ICT Innovations 2011** Ljupco Kocarev,2012-03-22 Information and Communication Technologies has enlarged its horizon and it is practiced under multidisciplinary contexts that introduce new challenges to theoretical and technical approaches The most critical benefit of introducing new ICT technologies in our real world living are the new ways of working that the online world makes possible Complexity uncertainty and scaling issues of real world problems as well as natural phenomena in ecology medicine and biology demanding ICT assistance create challenging application domains for artificial intelligence decision support and intelligence systems wireless sensor networks pervasive and ubiquitous computing multimedia information systems data management systems internet and web applications and services computer networks security and cryptography distributed systems GRID and cloud computing This book offers a collection of papers presented at the Third International Conference on ICT Innovations held in September 2011 in Skopje Macedonia The conference gathered academics professionals and practitioners in developing solutions and systems in the industrial and business arena especially innovative commercial implementations novel applications of technology and experience in applying recent ICT research advances to practical solutions **ICT Innovations for Sustainability** Lorenz M. Hilty,Bernard Aebischer,2014-08-06 ICT Innovations for Sustainability is an investigation of how information and communication technology can contribute to sustainable development It presents clear definitions of sustainability suggesting conceptual frameworks for the positive and negative effects of ICT on sustainable development It reviews methods of assessing the direct and indirect impact of ICT systems on energy and materials demand and examines the results of such assessments In addition it investigates ICT based approaches to supporting sustainable patterns of production and consumption analyzing them at various levels of abstraction from end user devices Internet infrastructure user behavior and social practices to macro economic indicators Combining approaches from Computer Science Information Systems Human Computer Interaction Economics and Environmental Sciences the book presents a new holistic perspective on ICT for Sustainability ICT4S It is an indispensable resource for anyone working in the area of ICT for Energy Efficiency Life Cycle Assessment of ICT Green IT Green Information Systems Environmental Informatics Energy Informatics Sustainable HCI or Computational Sustainability **ICT Innovations 2015** Suzana Loshkovska,Saso Koceski,2015-10-03 This book offers a collection of selected papers presented at the Seventh International

Conference on ICT Innovations held in October 2015 in Ohrid Macedonia with main topic Emerging Technologies for Better Living The conference gathered academics professionals and industrial practitioners that work on developing the emerging technologies systems applications in the industrial and business arena especially innovative commercial implementations novel application of technology and experience in applying recent ICT research advances to practical solutions Advances and New Trends in Environmental Informatics Volker Wohlgemuth, Frank Fuchs-Kittowski, Jochen Wittmann, 2016-09-02 This book presents the latest findings and ongoing research in the field of green information systems as well as green information and communication technology ICT It provides insights into a whole range of cross cutting concerns in ICT and environmental sciences and showcases how information and communication technologies allow environmental and energy efficiency issues to be handled effectively Offering a selection of extended and reworked contributions to the 30th International Conference EnviroInfo 2016 it is essential reading for anyone wanting to extend their expertise in the area

Software Engineering Methods in Intelligent Algorithms Radek Silhavy, 2019-05-07 This book presents software engineering methods in the context of the intelligent systems It discusses real world problems and exploratory research describing novel approaches and applications of software engineering software design and algorithms The book constitutes the refereed proceedings of the Software Engineering Methods in Intelligent Algorithms Section of the 8th Computer Science On line Conference 2019 CSOC 2019 held on line in April 2019 **Trust & Fault in Multi Layered Cloud Computing**

Architecture Punit Gupta, Pradeep Kumar Gupta, 2020-01-20 This book discusses various aspects of cloud computing in which trust and fault tolerance models are included in a multilayered cloud architecture The authors present a variety of trust and fault models used in the cloud comparing them based on their functionality and the layer in the cloud to which they respond Various methods are discussed that can improve the performance of cloud architectures in terms of trust and fault tolerance while providing better performance and quality of service to user The discussion also includes new algorithms that overcome drawbacks of existing methods using a performance matrix for each functionality This book provide readers with an overview of cloud computing and how trust and faults in cloud datacenters affects the performance and quality of service assured to the users Discusses fundamental issues related to trust and fault tolerance in Cloud Computing Describes trust and fault management techniques in multi layered cloud architecture to improve security reliability and performance of the system Includes methods to enhance power efficiency and network efficiency using trust and fault based resource allocation

Soft Computing: Theories and Applications Kanad Ray, Tarun K. Sharma, Sanyog Rawat, R. K. Saini, Anirban Bandyopadhyay, 2018-08-30 The book focuses on soft computing and its applications to solve real world problems occurring in different domains ranging from medicine and healthcare and supply chain management to image processing and cryptanalysis It includes high quality papers presented in the International Conference on Soft Computing Theories and Applications SoCTA 2017 organized by Bundelkhand University Jhansi India Offering significant insights into soft computing

for teachers and researchers alike the book inspires more researchers to work in the field of soft computing **Advances and New Trends in Environmental Informatics** Hans-Joachim Bungartz,Dieter Kranzlmüller,Volker Weinberg,Jens

Weismüller,Volker Wohlgemuth,2018-11-03 This book presents the latest findings and ongoing research in the field of environmental informatics It addresses a wide range of cross cutting activities such as efficient computing virtual reality disruption management big data open science and the internet of things and showcases how these green information communication technologies ICT can be used to effectively address environmental and societal challenges Presenting a selection of extended contributions to the 32nd edition of the International Conference EnviroInfo 2018 at the Leibniz Supercomputing Centre in Garching near Munich it is essential reading for anyone looking to expand their expertise in the area ICT for Promoting Human Development and Protecting the Environment Francisco J. Mata,Ana Pont,2016-08-29

This book constitutes the refereed proceedings of the 6th IFIP World Information Technology Forum WITFOR 2016 San Jos Costa Rica in September 2016 The 16 full papers and 6 short papers presented were carefully reviewed and selected from 45 submissions Within the general theme ICT for Promoting Human Development and Protecting the Environment the papers are organized in the following topical sections encompassing the Sustainable Development Goals SDGs recently adopted by the United Nations ICT and cross cutting development issues ICT and environmental problems ICT and human development problems and ICT and economic development problems New Perspectives on Information Systems Modeling and Design Rosado da Cruz, António Miguel,Ferreira da Cruz, Maria Estrela,2018-11-09 Information modeling plays an important role in every level of the enterprise information system s architecture Modeling allows organizations to adapt and become more efficient helping top managers and engineers outline tactics to reach strategic objectives understand organizational needs and design information systems that are aligned with business goals New Perspectives on Information Systems Modeling and Design is an essential reference source that discusses organizational adaptation through the integration of new information technologies into existing processes and underlying supporting applications Featuring research on topics such as application integration change management and mobile process activities this book is ideally designed for managers researchers system developers entrepreneurs graduate level students business professionals information system engineers and academicians seeking coverage on emerging technological developments and practical solutions for system modeling and design

Ambient Assisted Living and Enhanced Living Environments Ciprian Dobre,Constandinos x Mavromoustakis,Nuno Garcia,Rossitza Ivanova Goleva,George Mastorakis,2016-11-02 Ambient Assisted Living and Enhanced Living Environments Principles Technologies and Control separates the theoretical concepts concerning the design of such systems from their real world implementations For each important topic the book bridges theory and practice introducing the instruments needed by professionals in their activities To this aim topics are presented in a logical sequence with the introduction of each topic motivated by the need to respond to claims and requirements from a wide range of AAL ELE applications The advantages and

limitations of each model or technology are presented through concrete case studies for AAL ELE systems The book also presents up to date technological solutions to the main aspects regarding AAL ELE systems and applications a highly dynamic scientific domain that has gained much interest in the world of IT in the last decade In addition readers will find discussions on recent AAL ELE technologies that were designed to solve some of the thorniest business problems that affect applications in areas such as health and medical supply smart city and smart housing Big Data and Internet of Things and many more Introduces readers to technologies supporting the development of Ambient Assisted Living applications Explains state of the art technological solutions for the main issues regarding AAL and Enhanced Living Environments Reports the development process of scientific and commercial applications and platforms that support AAL and ELE Identifies the advanced solutions in the context of Enhanced Living Environments

Green IT Engineering: Social, Business and Industrial Applications Vyacheslav Kharchenko, Yuriy Kondratenko, Janusz Kacprzyk, 2018-09-29 This book describes the implementation of green IT in various human and industrial domains Consisting of four sections Development and Optimization of Green IT Modelling and Experiments with Green IT Systems Industry and Transport Green IT Systems Social Educational and Business Aspects of Green IT it presents results in two areas the green components networks cloud and IoT systems and infrastructures and the industry business social and education domains It discusses hot topics such as programmable embedded and mobile systems sustainable software and data centers Internet servicing and cyber social computing assurance cases and lightweight cryptography in context of green IT Intended for university students lecturers and researchers who are interested in power saving and sustainable computing the book also appeals to engineers and managers of companies that develop and implement energy efficient IT applications

Soft Computing Applications Valentina Emilia Balas, Lakhmi C. Jain, Marius Mircea Balas, Dumitru Baleanu, 2023-10-26 Soft computing techniques open significant opportunities in several areas such as industry medicine energy security transportation and education This book provides theory and applications development using soft computing techniques by organizing intelligent systems for many applications to the benefit of humanity The book comes from a multidisciplinary subject whose audience can come from different academic departments e g department of computer science and engineering department of medical imaging department of biomedical informatics department of education sciences and so on where artificial intelligence and soft computing are of routine courses The book covers a range of audience from academicians practitioners researchers and students to stakeholders It can support graduate students and interns to develop a deep understanding of the latest paradigms in the soft computing techniques

Research Anthology on Agile Software, Software Development, and Testing Management Association, Information Resources, 2021-11-26 Software development continues to be an ever evolving field as organizations require new and innovative programs that can be implemented to make processes more efficient productive and cost effective Agile practices particularly have shown great benefits for improving the effectiveness of software

development and its maintenance due to their ability to adapt to change It is integral to remain up to date with the most emerging tactics and techniques involved in the development of new and innovative software The Research Anthology on Agile Software Software Development and Testing is a comprehensive resource on the emerging trends of software development and testing This text discusses the newest developments in agile software and its usage spanning multiple industries Featuring a collection of insights from diverse authors this research anthology offers international perspectives on agile software Covering topics such as global software engineering knowledge management and product development this comprehensive resource is valuable to software developers software engineers computer engineers IT directors students managers faculty researchers and academicians

Open Source Cloud Computing Systems: Practices and Paradigms Vaquero, Luis M.,Cáceres, Juan,Hierro, Juan J.,2012-01-31 This book bridges the gap between solutions and users needs pertaining to the most relevant open source cloud technologies available today from a practical perspective Recent Innovations in Computing Pradeep Kumar Singh,Yashwant Singh,Maheshkumar H. Kolekar,Arpan Kumar Kar,Jitender Kumar Chhabra,Abhijit Sen,2021-01-12 This book features selected papers presented at the 3rd International Conference on Recent Innovations in Computing ICRIC 2020 held on 20 21 March 2020 at the Central University of Jammu India and organized by the university s Department of Computer Science Information Technology It includes the latest research in the areas of software engineering cloud computing computer networks and Internet technologies artificial intelligence information security database and distributed computing and digital India

Exploring Innovative and Successful Applications of Soft Computing Masegosa, Antonio D.,Villacorta, Pablo J.,Cruz-Corona, Carlos,García-Cascales, M. Socorro,Lamata, María T.,Verdegay, José L.,2013-11-30 The evolution of soft computing applications have offered a multitude of methodologies and techniques that are useful in facilitating new ways to address practical and real scenarios in a variety of fields Exploring Innovative and Successful Applications of Soft Computing highlights the applications and conclusions associated with soft computing in different technological environments Providing potential results based on new trends in the development of these services this book aims to be a reference source for researchers practitioners and students interested in the most successful soft computing methods applied to recent problems Sustainable Business Manuel Fischer,Daniel Foord,Jan Frecè,Kirsten Hillebrand,Ingrid Kissling-Näf,Rahel Meili,Marie Peskova,David Risi,René Schmidpeter,Tobias Stucki,2023-06-18 This open access book is a compact guide to the development of sustainable business which has become the central concept in discussions about the future development of humanity and planet earth It provides basic terminology and concepts on sustainable business and offers insights into a new management paradigm that integrates social and environmental dimensions into business models strategies and operations New business concepts such as the donut economy the circular economy social innovation and sustainable leadership are introduced and the book outlines how they influence the way we run businesses today and in the future This book lays the foundation for new management thinking in business

and academia making it a essential reader for professionals and students alike **Distributed Computer and Communication Networks** Vladimir Vishnevsky,Dmitry Kozyrev,2016-03-05 This book constitutes the refereed proceedings of the 18th International Conference on Distributed and Computer and Communication Networks DCCN 2015 held in Moscow Russia in October 2015 The 38 revised full papers presented were carefully reviewed and selected from 94 submissions The papers cover the following topics computer and communication networks architecture optimization control in computer and communication networks performance and QoS evaluation in wireless networks modeling and simulation of network protocols queuing and reliability theory wireless IEEE 802 11 IEEE 802 15 IEEE 802 16 and UMTS LTE networks FRID technology and its application in intellectual transportation networks protocols design MAC Routing for centimeter and millimeter wave mesh networks internet and web applications and services application integration in distributed information systems big data in communication networks
