Title of your speech: *Securing yourself online*

Purpose of your speech: *to inform audience about online risks and how to prevent them.*

### I. INTRODUCTION

*You're at risk. All of us are at risk, and I'm not talking about STDs, global warming or terrorism. I'm talking about your life online. You're at risk of having your computer taken over so that perfect strangers can read your email, access your bank accounts, pilfer your credit card numbers and even steal your identity.*

### II. BODY

#### A. First Point: Use strong password

##### 1. First Subpoint: Criteria for a strong password

- At least 10-15 characters
- Upper case, lower case letter
- Number
- Punctuation

##### 2. Second sub-point: Example

*According to Microsoft's online guide to creating strong passwords when your passwords contain long combinations of seemingly random letters, numbers and punctuation your security increases exponentially meaning that a password like the one I showed you is literally billions of times more secure than something short and ordinary like hot dog or college.*

[Transition]: *In addition to having a strong password, you should...*
