Parker, 2012-12-06 In February of 1990 the balloting process for the IEEE proposed standard P1149 1 was completed creating IEEE Std 1149 1 1990 Later that summer in record time the standard won ratification as an ANSI standard as well This completed over six years of intensive cooperative effort by a diverse group of people who share a vision on solving some of the severe testing problems that exist now and are steadily getting worse Early in this process someone asked me if I thought that the P1149 1 effort would ever bear fruit I responded somewhat glibly that it was anyone's guess Well it wasn't anyone's guess but rather the faith of a few individuals in the proposition that many testing problems could be solved if a multifaceted industry could agree on a standard for all to follow Four of these individuals stand out they are Harry Bleeker Colin Maunder Rodham Tulloss and Lee Whetsel In that I am convinced that the 1149 1 standard is the most significant testing development in the last 20 years I personally feel a debt of gratitude to them and all the people who labored on the various Working Groups in its creation      *Evolutionary Computation* Ashish M.
