If Youve Raised Kids You Can Manage Anything:

If You've Raised Kids, You Can Manage Anything Ann Crittenden, 2005 With insight from prominent women in a number of fields Crittenden discusses how child rearing calls for multitasking enhances interpersonal skills and develops the ability to motivate and empower others **Encyclopedia of Motherhood** Andrea O'Reilly, 2010-04-06 In the last decade the topic of motherhood has emerged as a distinct and established field of scholarly inquiry A cursory review of motherhood research reveals that hundreds of scholarly articles have been published on almost every motherhood theme imaginable The Encyclopedia of Motherhood is a collection of approximately 700 articles in a three volume A to Z set exploring major topics related to motherhood from geographical historical and cultural entries to anthropological and psychological contributions In human society few institutions are as important as motherhood and this unique encyclopedia captures the interdisciplinary foundation of the subject in one convenient reference The Encyclopedia is a comprehensive resource designed to provide an understanding of the complexities of motherhood for academic and public libraries and is written by academics and institutional experts in the social and behavioural sciences Maxed Out Katrina Alcorn, 2013-08-27 An intimate and revealing examination of today's motherhood overload crisis Winner of a Foreword IndieFab Book of the Year Award Katrina Alcorn was a 37 year old mother with a happy marriage and a thriving career when one day on the way to Target to buy diapers she had a breakdown Her carefully built career shuddered to a halt and her journey through depression anxiety and insomnia followed by medication meditation and therapy began Alcorn wondered how a woman like herself with a loving husband a supportive boss three healthy kids and a good income was unable to manage the demands of having a career and a family Over time she realized that she wasn't alone many women were struggling to do it all and feeling as if they were somehow failing as a result Mothers are the breadwinners in two thirds of American families yet the American workplace is uniquely hostile to the needs of parents Weaving in surprising research about the dysfunction between the careers and home lives of working mothers as well as the consequences to women's health Alcorn tells a deeply personal story about having it all failing miserably and what comes after Ultimately she offers readers a vision for a healthier happier and more productive way to live and work *Gendered academia* Maria Carmela Agodi, Adele Lauria, Ilenia Piacardi, 2021-12-30 Italiano Negli ultimi decenni profonde trasformazioni hanno ridisegnato il mondo accademico e l'ambiente della ricerca Le riforme delle strutture di finanziamento della valutazione della ricerca e delle procedure di responsabilità stanno ancora ridisegnando le pratiche del lavoro accademico ridefinendo i programmi di ricerca e determinando effetti rilevanti sui percorsi di carriera scientifica Nonostante gli sforzi delle politiche europee verso lo sviluppo di una ricerca più responsabile ed inclusiva i processi che emergono da queste trasformazioni dei contesti accademici stanno producendo nuove disuguaglianze e rafforzando quelle vecchie Le nuove regole nel reclutamento e nella progressione di carriera dei ricercatori riducono in alcuni casi e intensificano in altri i divari di genere preesistenti con un impatto variabile sui ricercatori a seconda della loro appartenenza

a diverse coorti al genere o a gruppi minoritari e sulle università a seconda delle dimensioni e dei contesti regionali Adottando una prospettiva intersezionale i contributi di questo volume si concentrano sui processi di gendering nel mondo accademico italiano Complessivamente essi riescono a conseguire un duplice risultato svelare il carattere di genere delle pratiche accademiche e di ricerca e tracciare i percorsi emergenti verso la loro rimodellazione in senso più equo e inclusivo English In recent decades deep transformations have been reshaping academia and the research environment Reforms in funding structures research assessment and accountability procedures are still redesigning the practices in academic work redefining research schedules and determining relevant effects on scientific career paths Despite European policies efforts towards the development of more responsible and inclusive research the processes emerging from these transformations of academic contexts are producing new inequalities and strengthening old ones New rules in the recruitment and career progression of researchers reduce in some instances and intensify in others the pre existing gender gaps with varying impact on researchers according to their belonging to different cohorts gender or minority groups and on universities according to size and regional contexts Adopting an intersectional perspective contributions in this volume focus on gendering processes in Italian academia Altogether they succeed in accomplishing a double result to unveil the gendered character of academic and research practices and to trace emergent paths towards their reshaping into more equitable and inclusive ones **Through the Labyrinth** Alice Hendrickson Eagly, Linda Lorene Carli, 2007 At the heart of the authors analysis is the metaphor they propose to replace the outdated idea of the glass ceiling the labyrinth This new concept better captures the varied challenges that women face as they navigate indirect complex and often discontinuous paths toward leadership BOOK JACKET

Women, Feminism, and Femininity in the 21st Century B. Mousli, E. Roustang-Stoller, 2009-05-11 American women look at French women as having it all sex motherhood work and public office while French women look at American women as puritanical excessively feminist and unable to have it all without guilt The essays in this book by leading American and French academics and critics set the record straight by assessing the truth of each outlook They conclude that facts are different from imagination and that on many issues French feminists could actually look to the U S for inspiration This book offers the first comparative critical appraisal of how women live in the US and in France and suggests paths of reflection on what women can do to improve their lives in the twenty first century This is a must read for anyone interested in the nature of womanhood today in the Western World **Inside Job: 8 Secrets to Loving Your Work and Thriving**, 2012

Everything you know about career planning is backward Inside Job dispels the traditional methods of career planning which are no longer effective and illuminates the secrets of satisfying and lucrative work These insights and wisdom remind us that passion heart and spirit have cash value in today's market Inside Job teaches us that career satisfaction starts on the inside

The Opt Out Revolt Lisa A. Mainiero, Sherry E. Sullivan, 2006-12-15 Learn how to be a New Careerist blazing trails and redesigning the corporate landscape **Never Bet the Farm** Anthony Iaquinto, Stephen Spinelli, Jr., 2010-12-03 In Never

Bet the Farm two leading entrepreneurs Anthony Iaquinto and Stephen Spinelli turn much of the so called expert advice for entrepreneurs on its head They show that by preparing for setbacks and using a framework that can help reduce risks and simplify decision making entrepreneurs can increase their probability for success They refute the idea that there is an ideal entrepreneurial type and show that luck can be as important as a business plan in many enterprises Above all the authors emphasize that entrepreneurship is a career not a one time event and winners are those who can keep themselves in the game Never Bet the Farm is an easy to understand and attractive tool for anyone who has a business idea but who might be wary of the risks implied in starting their own business

The Parent's Guide to Family-Friendly Work (EasyRead Super Large 18pt Edition) , Through the Labyrinth Alice H. Eagly,Linda L. Carli,2007-10-16 Despite real progress women remain rare enough in elite positions of power that their presence still evokes a sense of wonder In Through the Labyrinth Alice Eagly and Linda Carli examine why women s paths to power remain difficult to traverse First Eagly and Carli prove that the glass ceiling is no longer a useful metaphor and offer seven reasons why They propose the labyrinth as a better image and explain how to navigate through it This important and practical book addresses such critical questions as How far have women actually come as leaders Do stereotypes and prejudices still limit women s opportunities Do people resist women s leadership more than men s And do organisations create obstacles to women who would be leaders This book s rich analysis is founded on scientific research from psychology economics sociology political science and management The authors ground their conclusions in that research and invoke a wealth of engaging anecdotes and personal accounts to illustrate the practical principles that emerge With excellent leadership in short supply no group organisation or nation can afford to restrict women s access to leadership roles This book evaluates whether such restrictions are present and when they are what we can do to eliminate them
