leaving investors in the dark about serious risks and negative impacts on their savings In Easy Prey Investors investigative forensic accountants Al and Mark Rosen examine the circumstances beginning with a 1997 Supreme Court of Canada ruling that largely granted external auditors immunity against shareholder lawsuits that have led to a proliferation of corporate scandals and other financial manipulations and a corresponding lack of accountability among auditors Based on their many years of experience in major Canadian court cases involving collapsed companies the authors reveal the full stories behind the financial deceptions and describe the disturbing consequences for investors They show how a combination of inaction by lawmakers and illogical delegation of regulatory power to conflicted financial statement auditors has seriously harmed investors as well as how most conventional protections have been stripped away from stakeholders Why invest in Canada when your money can so easily be lost Prying open doors too often sealed shut Easy Prey Investors illuminates the unpleasant details of financial manipulation and suggests new ways to guide and protect investors and their families
